PRODUCTS >> HOLOGRAM LABELS

The most popular and efficient product for brand promotion and brand authentication are hologram labels and stickers. This holographic technology can be used to any product or commodity because it is in label form. Hologram labels are simple to use and apply; all you have to do is peel and paste.

Holograms provide foolproof protection against all forms of imitation for copying and pirating and provide an authenticity label for packaging, giftware, stationery, security printing, brand authentication, and other products.

PRODUCTS >> HOLOGRAPHIC STAMPING FOILS

To improve security and authentication, holographic transfer foils from Holoseal can be applied to priceless documents, product labels, and cartons. The production line already in place can easily be combined with the new process.

Holographic images are transferred via a heat or UV method on paper, film, clothing, and a variety of other surfaces for both decoration and authentication.

For branding, holographic images can be transferred to pharmaceutical labels, cartons, tickets, and other surfaces.

PRODUCTS >> HOLOGRAPHIC FILMS

For enhancing brand identities and drawing customers' attention among crowded retail shelves, Holoseal Holographic film designs offer an infinite variety of visual effects in packaging.

For the purpose of preventing oxidation and having excellent barrier characteristics against moisture and oxygen for prolonged shelf life of the packed goods, holographic films are made from the highest grade raw materials.

Bespoke Holographic design films from Holoseal are used to safeguard & authenticate genuine products. Holoseal Solution has been widely used by brand owners as a powerful tool to combat imitation goods and safeguard their brand in the marketplace.
